

I'm a Seattle based interactive designer that loves solving problems at the intersection of people, technology, & product.

Experience

Freelance Designer

May 2017–Present

Freelance Designer working with studios and agencies building digital products, user interfaces, websites, brands and illustrations.

Designer at Despass

August 2015–May 2017

Principal designer focused on growth. Engaged in all aspects of the company through wireframing, product, and web design, illustration, front-end development, marketing automation, a/b testing, social media, and copywriting.

Designer at State Farm Insurance

March 2014–July 2015

Collaborated on the Digital Design team within Creative Services. Responsible for designing websites, wireframes, internal products, ad campaigns, and illustrations to support the organization.

Web Designer at Simantel

July 2013–March 2014

Designed wireframes, websites, and applications from concept to execution for clients big and small.
